The Role of Employee Motivation

Employee motivation is a central theme in rice io psychology. Understanding what drives individuals to perform at their best can lead to improved job performance and satisfaction. There are several theories of motivation that organizations can apply:

- **Maslow's Hierarchy of Needs:** This theory posits that individuals are motivated by a series of hierarchical needs, from basic physiological needs to self-actualization. Recognizing where employees fall within this hierarchy can help organizations address their motivations effectively.
- **Herzberg's Two-Factor Theory:** According to this theory, factors that lead to job satisfaction (motivators) are separate from those that lead to job dissatisfaction (hygiene factors). Organizations can enhance satisfaction by improving motivators while addressing hygiene factors.
