history of tijaniyya pdf: *Wrapping Authority* Joseph Hill, 2018-01-01 Since around 2000, a growing number of women in Dakar, Senegal have come to act openly as spiritual leaders for both men and women. As urban youth turn to the Fay?a Tij?niyya Sufi Islamic movement in search of direction and community, these women provide guidance in practicing Islam and cultivating mystical knowledge of God. While women Islamic leaders may appear radical in a context where women have rarely exercised Islamic authority, they have provoked surprisingly little controversy. *Wrapping Authority* tells these women's stories and explores how they have developed ways of leading that feel natural to themselves and those around them. Addressing the dominant perceptions of Islam as a conservative practise, with stringent regulations for women in particular, Joseph Hill reveals how women integrate values typically associated with pious Muslim women into their leadership. These female leaders present spiritual guidance as a form of nurturing motherhood; they turn acts of devotional cooking into a basis of religious authority and prestige; they connect shyness, concealing clothing, and other forms of feminine self-wrapping to exemplary piety, hidden knowledge, and charismatic mystique. Yet like Sufi mystical discourse, their self-presentations are profoundly ambiguous, insisting simultaneously on gender distinctions and on the transcendence of gender through mystical unity with God.

history of tijaniyya pdf: *Islam Observed* Clifford Geertz, 1971-08-15 In four brief chapters, writes Clifford Geertz in his preface, I have attempted both to lay out a general framework for the comparative analysis of religion and to apply it to a study of the development of a supposedly single creed, Islam, in two quite contrasting civilizations, the Indonesian and the Moroccan. Mr. Geertz begins his argument by outlining the problem conceptually and providing an overview of the two countries. He then traces the evolution of their classical religious styles which, with disparate settings and unique histories, produced strikingly different spiritual climates. So in Morocco, the Islamic conception of life came to mean activism, moralism, and intense individuality, while in Indonesia the same concept emphasized aestheticism, inwardness, and the radical dissolution of personality. In order to assess the significance of these interesting developments, Mr. Geertz sets forth a series of theoretical observations concerning the social role of religion.

history of tijaniyya pdf: *Jihad of the Pen* Rudolph Ware, 2018-12-11 Outsiders have long observed the contours of the flourishing scholarly traditions of African Muslim societies, but the most renowned voices of West African Sufism have rarely been heard outside of their respective constituencies. This volume brings together writings by Uthman b. Fudi (d. 1817, Nigeria), Umar Tal (d. 1864, Mali), Ahmad Bamba (d. 1927, Senegal), and Ibrahim Niasse (d. 1975, Senegal), who, between them, founded the largest Muslim communities in African history. *Jihad of the Pen* offers translations of Arabic source material that proved formative to the constitution of a veritable Islamic revival sweeping West Africa in the nineteenth and twentieth centuries. Recurring themes shared by these scholars—etiquette on the spiritual path, love for the Prophet Muhammad, and divine knowledge—demonstrate a shared, vibrant scholarly heritage in West Africa that drew on the classics of global Islamic learning, but also made its own contributions to Islamic intellectual history. The authors have selected enduringly relevant primary sources and richly contextualized them within broader currents of Islamic scholarship on the African continent. history of tijaniyya pdf: *Deep Knowledge* Oludamini Ogunnaike, 2020-11-11 This book is an

in-depth, comparative study of two of the most popular and influential intellectual and spiritual traditions of West Africa: Tijani Sufism and Ifa. Employing a unique methodological approach that thinks with and from—rather than merely about—these traditions, Oludamini Ogunnaike argues that they contain sophisticated epistemologies that provide practitioners with a comprehensive worldview and a way of crafting a meaningful life. Using theories belonging to the traditions themselves as well as contemporary oral and textual sources, Ogunnaike examines how both Sufism and Ifa answer the questions of what knowledge is, how it is acquired, and how it is verified. Or, more simply: What do you know? How did you come to know it? How do you know that you know? After analyzing Ifa and Sufism separately and on their own terms, the book compares them to each other and to certain features of academic theories of knowledge. By analyzing Sufism from the perspective of Ifa, Ifa from the perspective of Sufism, and the contemporary academy from the perspective of both, this book invites scholars to inhabit these seemingly “foreign” intellectual traditions as valid and viable perspectives on knowledge, metaphysics, psychology, and ritual practice. Unprecedented and innovative, *Deep Knowledge* makes a significant contribution to cross-cultural philosophy, African philosophy, religious studies, and Islamic studies. Its singular approach advances our understanding of the philosophical bases underlying these two African traditions and lays the groundwork for future study.

history of tijaniyya pdf: Beyond Timbuktu Ousmane Oumar Kane, 2016-06-07 Renowned for its madrassas and archives of rare Arabic manuscripts, Timbuktu is famous as a great center of Muslim learning from Islam’s Golden Age. Yet Timbuktu is not unique. It was one among many scholarly centers to exist in precolonial West Africa. *Beyond Timbuktu* charts the rise of Muslim learning in West Africa from the beginning of Islam to the present day, examining the shifting contexts that have influenced the production and dissemination of Islamic knowledge—and shaped the sometimes conflicting interpretations of Muslim intellectuals—over the course of centuries. Highlighting the significant breadth and versatility of the Muslim intellectual tradition in sub-Saharan Africa, Ousmane Kane corrects lingering misconceptions in both the West and the Middle East that Africa’s Muslim heritage represents a minor thread in Islam’s larger tapestry. West African Muslims have never been isolated. To the contrary, their connection with Muslims worldwide is robust and longstanding. The Sahara was not an insuperable barrier but a bridge that allowed the Arabo-Berbers of the North to sustain relations with West African Muslims through trade, diplomacy, and intellectual and spiritual exchange. The West African tradition of Islamic learning has grown in tandem with the spread of Arabic literacy, making Arabic the most widely spoken language in Africa today. In the postcolonial period, dramatic transformations in West African education, together with the rise of media technologies and the ever-evolving public roles of African Muslim intellectuals, continue to spread knowledge of Islam throughout the continent.

history of tijaniyya pdf: *Islamic Criminal Law in Northern Nigeria* Gunnar J. Weimann, 2010 Annotation. In 2000 and 2001, twelve northern states of the Federal Republic of Nigeria introduced Islamic criminal law as one of a number of measures aiming at reintroducing the shari'a. Immediately after its adoption, defendants were sentenced to death by stoning or to amputation of the hand. Apart from a few well publicised trials, however, the number and nature of cases tried under Islamic criminal law are little known. Based on a sample of trials, the present thesis discusses the introduction of Islamic criminal law and the evolution of judicial practice within the regions historical, cultural, political and religious context. The introduction of Islamic criminal law was initiated by politicians and supported by Muslim reform groups, but its potential effects were soon mitigated on higher judicial levels and aspects of the law were contained by local administrators. history of tijaniyya pdf: *Islam and the Prayer Economy* Benjamin F. Soares, 2005 At a time

when so-called fundamentalism has become the privileged analytical frame for understanding Muslim societies past and present, this study offers an alternative perspective on Islam. In an innovative combination of anthropology, history, and social theory, Benjamin Soares explores Islam and Muslim practice in an important Islamic religious centre in West Africa from the late nineteenth century to the present. Drawing on ethnography, archival research, and written sources, Soares provides a richly detailed discussion of Sufism, Islamic reform, and other contemporary ways of being Muslim in Mali and offers an original analytical perspective for understanding changes in the practice of Islam more generally.

The story focuses on the organization of families and tribes, religious groups and states, showing how they were transformed by their interactions with other religious and political communities. The book concludes with the European commercial and imperial interventions that initiated a new set of transformations in the Islamic world, and the onset of the modern era. Organized in narrative sections for the history of each major region, with innovative, analytic summary introductions and conclusions, this book is a unique endeavour.

history of tijaniyya pdf: *The Ahmadiyya in the Gold Coast* John H. Hanson, 2017-10-16 The Ahmadiyya Muslim Community, a global movement with more than half a million Ghanaian members, runs an extensive network of English-language schools and medical facilities in Ghana today. Founded in South Asia in 1889, the Ahmadiyya arrived in Ghana when a small coastal community invited an Ahmadiyya missionary to visit in 1921. Why did this invitation arise and how did the Ahmadiyya become such a vibrant religious community? John H. Hanson places the early history of the Ahmadiyya into the religious and cultural transformations of the British Gold Coast (colonial Ghana). Beginning with accounts of the visions of the African Methodist Binyameen Sam, Hanson reveals how Sam established a Muslim community in a coastal context dominated by indigenous expressions and Christian missions. Hanson also illuminates the Islamic networks that connected this small Muslim community through London to British India. African Ahmadi Muslims, working with a few South Asian Ahmadiyya missionaries, spread the Ahmadiyya's theological message and educational ethos with zeal and effectiveness. This is a global story of religious engagement, modernity, and cultural transformations arising at the dawn of independence.

history of tijaniyya pdf: *Global Sufism* Francesco Piraino, Mark Sedgwick, 2019 Sufism is a growing and global phenomenon, far from the declining relic it was once thought to be. This book brings together the work of fourteen leading experts to explore systematically the key themes of Sufism's new global presence, from Yemen to Senegal via Chicago and Sweden. The contributors look at the global spread and stance of such major actors as the Ba 'Alawiyya, the 'Afropolitan' Tijaniyya, and the Gülen Movement. They map global Sufi culture, from Rumi to rap, and ask how global Sufism accommodates different and contradictory gender practices. They examine the contested and shifting relationship between the Islamic and the universal: is Sufism the timeless and universal essence of all religions, the key to tolerance and co-existence between Muslims and non-Muslims? Or is it the purely Islamic heart of traditional and authentic practice and belief? Finally, the book turns to politics. States and political actors in the West and in the Muslim world are using the mantle and language of Sufism to promote their objectives, while Sufis are building alliances with them against common enemies. This raises the difficult question of whether Sufis are defending Islam against extremism, supporting despotism against democracy, or perhaps doing both.

history of tijaniyya pdf: Contesting Islam in Africa Abdulai Iddrisu, 2013 Contesting Islam in Africa examines the experiences of returnee scholars, an emerging class of elites trained in Saudi and Egyptian theological universities, and their role in educational initiatives and the reconfiguration of Muslim identity in Ghana between 1920 and 2010. Based on oral interviews and significant archival work in Ghana and at the National Archives in London, the book addresses three questions: How did the returnee scholars conceptualize and rationalize local politics and Muslim life in a pluralistic society where Muslims are a minority? How did Ghana's colonial and post-colonial governments react to the transnational spaces constructed by Muslims generally? And, given the returnee educational imperative, what has been the Saudi and Egyptian influence on the formulation of Muslim culture in Ghana? The book also explores the influence of local mallams, in particular Alhaji Yussif Soalihi (Afa Ajura), who was indefatigable as he almost single-handedly spread Wahhabism in Ghana. For any meaningful understanding of reform Islam and the returnee scholars in Ghana, it is essential to appreciate the many facets of the life of Afa Ajura. The activities of Afa Ajura and his literate assistants created public controversy and sometimes led to open confrontation with religious adversaries, the Tijaniyya fraternity. These activities redefined intra-religious conflagration and turned Afa Ajura into a religious phenomenon. The many violent confrontations that ensued also attracted the attention of external actors not only interested in spreading reform Islam, but also interested in integrating Ghanaian Muslims into the wider world of Islam. This book argues that Salafism/Wahhabism was and in many ways remains a homegrown religious phenomenon that benefitted primarily from preexisting splits within the northern Ghanaian Muslim community. It also argues that transnational Salafism/Wahhabism and Middle Eastern and North African contact--especially through education and outreach programs--only provided the ideological justification and the grammar for reinterpreting the common good and for reconfiguring local social and political sensibilities. This book is part of the African World Series, edited by Toyin Falola, Jacob and Frances Sanger Mossiker Chair in the Humanities, University of Texas at Austin. The influence of Wahhabism in sub-Saharan Africa remains one of the least-investigated areas in African studies at a time when tensions, mistrust and religious conflicts have increased. By examining the role of the returnee ulama (Muslim scholars) and their organizations in creating new Muslim identities modeled on their Arab funders, in stark contrast to the Africanized versions of Islam practiced by their own parents, grandparents or relatives at home, the book promises to shed new light on the changing face of Islam in traditionally peaceful and tolerant Muslim societies of sub-Saharan Africa. -- Fallou Ngom, PhD., Associate Professor of Anthropology & Director of the African Language Program, African Studies Center, Boston University The study of Islam in Africa has not attracted a lot of scholarly attention because the focus has tended to be on the colonial project in Africa. The great moment in the manuscript is when the author asks this question: "How do we explain the intensity of these clashes - Muslim against Muslim - in a religiously plural country where Islam remains a minority religion?" This is an important question because the tendency has been to see conflict between Muslims and non Muslims and yet this book promises to provide a totally different type of analysis. The manuscript provides insightful overview of some of the tensions in the past, by looking at conflicts that have occurred in the past. ... Using lucid and great narrative, analytical and interpretative style, the author takes on a rich array of issues that have not attracted a lot of attention in African history. It is a project that deploys primary and secondary sources in a remarkable manner. It will be a useful addition to literature on the spread of Islam in Africa. It is likely to have a great impact on our knowledge of Islam in West Africa in general and Ghana in particular. -- Maurice Amutabi, PhD, Associate Professor, The Catholic University of Eastern Africa, Nairobi, Kenya The author was able to connect the spread of Islamic education in line with the Saudi Wahhabi doctrine fueled by the return of graduates from the Islamic University of Medina and the influx of Islamic books that promote the Salafy ideology into Ghana and the decline of Tijaniyya in

history of tijaniyya pdf: Beyond Ethnic Politics in Africa Dominika Koter, 2016-10-13 Why do ethnic politics emerge in some ethnically diverse societies but not others? Focusing on sub-Saharan Africa, Dominika Koter argues that the prevailing social structures of a country play a central role in how politicians attempt to mobilize voters. In particular, politicians consider the strength of local leaders, such as chiefs or religious dignitaries, who have historically played a crucial role in many parts of rural Africa. Local leaders can change the electoral dynamics by helping politicians secure votes among people of different ethnicities. Ethnic politics thus can be avoided where there are local leaders who can serve as credible electoral intermediaries between voters and politicians. Koter shows that there is widespread variation in the standing of local leaders across Africa, as a result of long-term historical trends, which has meant that politicians have mobilized voters in qualitatively different ways, resulting in different levels of ethnic politics across the continent.

history of tijaniyya pdf: Historical Dictionary of the Republic of Cameroon Mark Dike DeLancey, Rebecca Neh Mbu, Mark W. Delancey, 2010-05-03 Cameroon is a country endowed with a variety of climates and agricultural environments, numerous minerals, substantial forests, and a dynamic population. It is a country that should be a leader of Africa. Instead, we find a country almost paralyzed by corruption and poor management, a country with a low life expectancy and serious health problems, and a country from which the most talented and highly educated members of the population are emigrating in large numbers. Although Cameroon has made economic progress since independence, it has not been able to change the dependent nature of its economy. The economic situation combined with the dismal record of its political history, indicate that prospects for political stability, justice, and prosperity are dimmer than they have been for most of the country's independent existence. The fourth edition of the Historical Dictionary of the Republic of Cameroon has been updated to reflect advances in the study of Cameroon's history as well as to provide coverage of the years since the last edition. It relates the turbulent history of Cameroon through a chronology, an introductory essay, a bibliography, and over 600 cross-referenced dictionary entries on significant persons, events, places, organizations, and other aspects of Cameroon history from the earliest times to the present.

history of tijaniyya pdf: Religion and the Making of Nigeria Olufemi Vaughan, 2016-11-10 In *Religion and the Making of Nigeria*, Olufemi Vaughan examines how Christian, Muslim, and indigenous religious structures have provided the essential social and ideological frameworks for the construction of contemporary Nigeria. Using a wealth of archival sources and extensive Africanist scholarship, Vaughan traces Nigeria's social, religious, and political history from the early nineteenth century to the present. During the nineteenth century, the historic Sokoto Jihad in today's northern Nigeria and the Christian missionary movement in what is now southwestern Nigeria provided the frameworks for ethno-religious divisions in colonial society. Following Nigeria's independence from Britain in 1960, Christian-Muslim tensions became manifest in regional and religious conflicts over the expansion of sharia, in fierce competition among political elites for state power, and in the rise of Boko Haram. These tensions are not simply conflicts over religious beliefs, ethnicity, and regionalism; they represent structural imbalances founded on the religious divisions forged under colonial rule.

history of tijaniyya pdf: Islam and Modernity Muhammad Khalid Masud, 2009-08-18 Recent events have focused attention on the perceived differences and tensions between the Muslim world and the modern West. As a major strand of Western public discourse has it, Islam appears resistant to internal development and remains inherently pre-modern. However Muslim societies have experienced most of the same structural changes that have impacted upon all societies: massive urbanisation, mass education, dramatically increased communication, the emergence of new types of institutions and associations, some measure of political mobilisation, and major transformations of the economy. These developments are accompanied by a wide range of social movements and by complex and varied religious and ideological debates. This textbook is a pioneering study providing an introduction to and overview of the debates and questions that have emerged regarding Islam and modernity. Key issues are selected to give readers an understanding of the complexity of the phenomenon from a variety of disciplinary perspectives. The various manifestations of modernity in Muslim life discussed include social change and the transformation of political and religious institutions, gender politics, changing legal regimes, devotional practices and forms of religious association, shifts in religious authority, and modern developments in Muslim religious thought.
